Notice is hereby given that a public hearing will be conducted by the City Council on Tuesday, June 3, 2025, at or after 5:00 p.m. The purpose of the public hearing will be to receive public comment and recommendations prior to the City Council acting on the First 2025 General Plan Amendment Package and associated specific plan amendments.

To address the proposed change in land use at 3150 Dutton Avenue ("B" above), which would reduce potential residential capacity by 86 units, and ensure there is no net loss in residential units within Santa Rosa, the City is proposing land use changes to increase residential density in other locations as part of the General Plan 2050 update ("C" above). The land use changes will include a proposed residential project at 615/625 Acacia Lane, from Low Density Residential to Medium-High Density Residential, resulting in greater than 140 additional residential units. These land use amendments will ensure concurrent action resulting in "No Net Loss" of residential density in compliance with Government Code Section 65863.b(2) and Section 66300, the Housing Crisis Act.
