

Community Advisory Committee Meeting #4 Preview + Materials

Dear Community Advisory Committee Members:

We are looking forward to reconvening for the next Community Advisory Committee (CAC) meeting to be held virtually on **January 24, 2022, starting at 6:00 PM**. We are looking forward to seeing everyone and having an interactive discussion.

The purpose of this CAC meeting is to continue our discussion of the Alternatives Workbook and to hear from you about the range of potential land use and circulation policy options for the next 20-30 years. We will also continue our discussion on the upcoming community engagement activities and the Equity Priority Communities Empowerment and Outreach Work Plan.

In preparation for this meeting, we ask that you please review the **updated Alternatives Workbook** (available at: www.santarosaforward.com/Alts). This version of the workbook was revised based on CAC, Technical Advisory Committee (TAC) and additional City department feedback. The workbook includes an expanded introduction, more information on the existing conditions analysis, additional information on equity, and additional information on key policy choices and options that will be the foundation for the community discussions taking place in February and March 2022.

In addition to the updated Alternatives Workbook, please also review the following CAC packet materials:

- CAC Meeting #4 Agenda (see www.santarosaforward.com/cac)
- CAC Meeting #4 Presentation (see www.santarosaforward.com/cac)
- CAC Meeting #3 Summary (see www.santarosaforward.com/cac)

We also updated the **Community Event Set #2 Overview and Assignments** matrix that shows the various activities and identifies roles for CAC members. We will go through this in detail during the next meeting. The matrix is located at the end of this memo.

We appreciate your participation in this important process and look forward to seeing you on January 24th. Please connect with Beatriz Guerrero Auna at bguerreroauna@srcity.org or by phone at (707) 543-4323 with any questions.

Regards,

SR Forward Project Team

Community Event Set #2 Overview and Assignments

We are now launching into the second round of community engagement, which is focused on discussing and evaluating land use and circulation alternatives. The following matrix summarizes the various engagement items and events that will take place during Community Event Set #2 and requests for CAC members to help get the word out and be liaisons to the community.
